

Qasimov E.K.

ÜMUMİ HİSTOLOGİYA

Sxemlər

**Azərbaycan Tibb Universitetinin Elmi Şurasının 30
oktyabr 2018-ci il tarixli iclasında dərs vəsaiti kimi
dərc olunması qərara alınmışdır**

Bakı 2019

Rəyçilər:

Azərbaycan Tibb Universitetinin Histologiya, embriologiya və sitologiya kafedrasının dosenti, t.ü.f.d. **M.R. Mehtiyev** və həmin kafedranın assistenti t.ü.f.d. **A.Ə. Əliyarbəyova**

Azərbaycan Tibb Universitetinin İnsan Anatomiyası kafedrasının professoru, t.ü.e.d. **A.B. İsayev**

Bakı Dövlət Universitetinin Genetika və Təkamül təlimi kafedrasının dosenti, b.ü.f.d. **Ə.Ə. Səmədov**

Qasımov E.K. Ümumi histologiya (sxemlər). Bakı. 2019. ... səh.

Dərs vəsaiti tibb ixtisası üzrə təhsil alan ali və orta ixtisas məktəblərinin tələbələri üçün nəzərdə tutulmuşdur. Bununla birlikdə biologiya fakültəsinin tələbələri, həmçinin sitoloqlar, embrioloqlar və histoloqlar da istifadə edə bilərlər.

ÖN SÖZ

Son illər respublikamızın təhsil sistemində aparılan islahatlar, xüsusilə Avropa vahid təhsil ailəsinə ineqrasiya yönündə atılan ciddi addımlar bizim də qarşımızda vacib öhdəliklər qoyur. Əsas tibb fənlərindən biri olan histologiyanın tədrisini günün tələbləri səviyyəsində qurmaq üçün klassik məlumatlarla yanaşı, müasir elmi biliklərin toplanması və tələbələrə çatdırılması çox zəruridir.

Bu baxımdan tərtib edilmiş «Ümumi histologiya – sxemlər» adlı dərs vəsaiti sitologiya, ümumi embriologiya və ümumi histologiya fənlərinin daha dərindən və mükəmməl mənimsənilməsində tələbələrə yardımçı olmalıdır. Tələbələr sxemlərdəki strukturları dərs vəsaitinin elektron variantına müvafiq olaraq rəngləməli və onların adlarını sol tərəfdə ayrılmış boş yerdə yazmalıdır. Dərs vəsaitinə daxil edilmiş sxemlərin böyük əksəriyyəti tədris programında nəzərdə tutulmuş preparatlara uyğun çəkilmişdir. Ona görə də tələbələr dərs prosesi zamanı öyrənilən histoloji mikropreparatlarla bilavasitə mikroskopun müxtəlif böyüdücülərində baxmaqla yanaşı, onların sxemlərinin miqyasının kompüterdə artırıb - azalma imkanlarına da malik olacaqlar. Bu işə keçirilən materialın tələbələr tərəfindən mənimsənilməsini xeyli asanlaşdırmalıdır.

Müəllif sxemlərin tərtibində istifadə olunmuş ədəbiyyat materiallarının (adları ədəbiyyat siyahısında verilmişdir) və ələl xüsüs “Vikipediya” saytlarında istifadəsinə icazə verilmiş materialların müəlliflərinə, kafedra əməkdaşlarından ass. N.T. Quliyevaya və A.Ə. Əliyarbəyovaya öz dərin minnətdarlığını bildirir.

Dərs vəsaitinin tərtibində buraxılmış xətalara görə əvvəlcədən üzr istəyir və bu haqda məlumat verənlərə öz minnətdarlığını bildirirəm.

Müəllif
